About Me

Passionatesoftwareengineering student witha strong interest in software quality assurance and testing. Eager to learn new testing methods and contribute to building reliable and user-friendly software.

Education

BSc (Hons)InComputerScience
University of Greater Manchester(UK)
Pending

Graduated Diploma In Software Engineering
Institute of Software Engineering - IJSE
Aug2023 - Present

GCE Advanced Level
Rippon Girls' College , Galle
2005 - 2018

Technical Skills

Programming Languages

- Java
- Python

Database

- MySQL
- MongDB

Version Control

- Git
- GitHub

Projects

Blood Donation Management System

Full-stack web app built with **Spring Boot**, **Java**, **MySQL**, and jQuery. Implemented JWT authentication with role-based access (Admin, Donor, Recipient) and developed a responsive UI for managing users, donations, and blood requests.

Portfolio Web

Developed a personal portfolio website using **Html**, **Css** and **Js** to showcase projects, skills, and experience. Implemented a responsive design and modern UI to enhance user engagement and accessibility.

Notezy - Mobile App

Cross-platform note-taking app built with **React Native** (Expo) and **Firebase**. Features secure authentication, CRUD for notes, real-time sync, and tab-based navigation.

Indoor Plant web Design - Figma

Designed a modern and visually engaging desktop web interface in **Figma** for an indoor plant store, featuring a clean layout and a product- grid structure to enhance user engagement and streamline the browsing experience.

Clothing Shop - Figma

Crafted a refined e-commerce interface using **Figma** for a modern apparel brand, integrating clear product displays, structured grids to drive a seamless and visually cohesive shopping experience.

Design

- Figma

IDEs & Tools

- IntelliJ IDEA
- WebStorm
- Visual StudioCode

Testing & Tools

- Postman
- Selenium(Learning)

Soft Skills

- Team Work
- Communication
- Self Confidence
- Fast Learner

Language

- English
- Sinhala

Experience

TraineeTelecommunication Technician *2022 Sep – 2023 Sep*

Arthur C Clerk Institution for Modern Technologies

- Acquired hands-on experience in electronic equipment testing and troubleshooting within the Communication Division.
- Strengthened analytical, problem-solving, and teamwork skills through continuous technical collaboration.
- Designed and tested PCBs using Proteus software and conducted breadboard circuit experiments.
- Developed circuits using MPU6050, soil moisture, and ultrasonic sensors integrated with Arduino Uno boards.
- Participated in sessions on power quality testing, surge protection, PLCs, and occupational health & safety.
